DevOps & Tools

Linux   **Docker**   **GitHub**   **GitLab**   **Postman**   **Thunder Client**   **Figma**

EXPERIENCE - latest

Senior Full Stack Engineer

Skyray Ventures

2023 - Ongoing   Islamabad - Pakistan

Developed and launched "WorkHub," an advanced employee tracking and productivity management software solution.

- Built using ReactJS, NodeJS, MongoDB, and JavaScript, enabling real-time tracking, reporting, and employee management for businesses.
- Achieved a 50% improvement in performance and a 75% reduction in maintenance efforts by implementing microservice architecture.
- Conceptualized, redesigned, and suggested enhancements, leading to major improvements in navigation and user experience.
- Mentored 5+ junior developers and supervised bi-weekly code reviews for the development team, resulting in a 25% increase in the team's coding efficiency and a 50% improvement in code quality.
- Scaled the application to support over 10,000 concurrent users without performance degradation, showcasing the reliability and scalability of the architecture.

EDUCATION

BS in Computer Science

Bahria University Islamabad
